Annex 1d: Safety Spacing of Units

The following diagram (reproduced by kind permission of ACCEO*) is intended only as an example to illustrate the safety spacing requirements under varying scenarios:

This guidance recommends that not less than three metres should be permitted between units. For this purpose, a unit includes the caravan/motor home/tent plus any awning, gazebo or "pup-tent" and the vehicle/tow car

Please Note: - To allow the attendance of tents & trailer tents (with the exception of children's "pup-tents") on caravan rallies a separate Camping Exemption Certificate must be held in conjunction with a Caravan Exemption certificate.
